About Us

StepsDirect is a family-centered biomechanics lab helping individuals of all ages reach optimal mobility through data-driven prosthetic, orthotic and posture treatments.

Our team has over 25 years of experience helping children correct orthopedic and neuromuscular conditions that might impact their quality of life in the short and long term.

Take the first step, and schedule a FREE Consult!

"Before visiting StepsDirect my son used to go to bed crying of foot cramps and leg pains. We had to use pain relievers and give nightly foot massages to help him go to sleep. Once he started using StepsDirect's pediatric orthotics the problem stopped-Immediately! He can run and jump and play all day without any complaints at night."

- JANELLE H
